

Nicolás Garavito-Camargo – Curriculum Vitae

NFHP Einstein Fellow | [University of Maryland](#), College Park, MD
E-mail: nico.garavito@gmail.com | Website: jngaravitoc.github.io | Github: github.com/jngaravitoc

Research Interests: Galactic Dynamics – Astrophysical probes of Dark Matter – Computational Methods – High-Performance Computing – N-body Simulations – Software development

Appointments

NFHP Einstein Fellow, University of Maryland, September 2025 - August 2028.

Education and past positions

Barbara Pichardo Future Faculty Fellow, University of Arizona, February 2025-August 2025.

Flatiron Research Fellow, Flatiron Institute, October 2021-December 2024.

Ph.D., Astronomy and Astrophysics, [University of Arizona](#), 2021.
Advisor: Dr. Gurtina Besla

M.Sc., Physics, [Universidad de Los Andes](#), Bogotá, Colombia, 2015.
Advisor: Dr. Jaime E. Forero-Romero

B.Sc., Physics, [Universidad Nacional de Colombia](#), Bogotá, Colombia, 2013.
Advisor: Dr. Rigoberto A. Casas Miranda

Scholarships and Awards

- NFHP Einstein Fellow, University of Maryland, September 2025-August 2028.
- Barbara Pichardo Future Faculty Fellowship, University of Arizona, 2025–2027.
- University of Arizona, Theoretical Astrophysics Program, Graduate Student Research Prize 2021.
- University of Arizona College of Science award for Excellence in Service for graduate students, 2020. (*Awarded to one graduate student across the college of science per year.*)
- University of Arizona theory travel grant, 2016, 2018.
- McCarthy-Stoeger Scholarship 2015-2017, Vatican Observatory.

Student Supervision

I have had the privilege of advising or co-advising a total of eight students (five Ph.D., three undergraduates) from diverse backgrounds.

- **Richard Brooks** (Graduate Student at University College London), Spring 2024 - present. I am advising Richard on one research project that was submitted for publication to ApJ (see article 29 in the publications section). We are currently working on a second paper, expected for submission in Fall 2025.
- **Elise Darragh-Ford** (Graduate student at Stanford), Fall 2023-Summer 2024. I advised Elise on a research project that was the final chapter of her Ph.D. thesis, resulting in one paper currently under preparation.
- **Silvio Varela** (Graduate student at Universidad de la Serena), Fall 2022-present. I am currently co-advising Silvio on a research project that will lead to a paper now in preparation.

- **Arpit Arora** (Graduate student at University of Pennsylvania); Fall 2021-present. I am currently co-advising (now Dr.) Arpit on two research projects: one paper has been accepted to ApJ (see article 27 in the publications section), and another was submitted in Spring 2025 (see article 33 in the publication section).
- **Hayden Foote** (Graduate student at University of Arizona), Fall 2021–present. I co-advised Hayden on a research project that resulted in a submitted publication (see article 28 in the publications section), and a second paper is currently in preparation.
- **Andrew Eden** (Undergraduate at Florida Institute of Technology), Fall 2022-Fall 2023. I advised Andrew on his undergraduate thesis project which will result in a paper that is currently in preparation. All the code that Andrew developed for his project is publicly available on [Github](#).
- **Ludia Adhikary** (Undergraduate CUNY), supervised through the AstroCOM CUNY/CCA program; NYC Summer 2022-Summer 2023. Ludia presented her work at the CCA symposium and she presented two posters. One at the SACNAS conference in 2022 and one at the winter AAS of 2023.
- **Stephanie Carolina Cely Rodriguez** (Undergraduate at Universidad Nacional de Colombia), I advised undergraduate Stephanie on her undergraduate thesis as part of the RECA summer program in Summer 2022. Stephanie successfully graduated in Summer 2023. A talk contribution from Stephanie was given at the RECA symposium and can be watched [here](#).

Teaching Experience

Principal lecturer of 3 courses for undergraduate level in physics for a total of 180 hours of teaching time. Teaching assistant for 3 courses.

- Guest Lecturer for the graduate Galaxies class, Columbia University, Fall 2022.
- Teaching assistant for the Astronomy Tutoring for Majors & Minors Program. University of Arizona, Spring 2019.
- Teaching assistant for the Computational Physics class PHYS305. University of Arizona. Spring 2018.
- 3 times Lecturer of the [Computational Tools](#) at Universidad de los Andes, spring semester 2014 - spring 2015.
- 3 times Lecturer of the Computational Methods Laboratory at Universidad de los Andes, semester spring 2014 - spring 2015.
- Teaching assistant of the [Computational Methods](#) Universidad de los Andes, fall semester 2014.
- Lecturer (for 3 different sessions) of the class Physics I Laboratory at Universidad de los Andes, fall semester 2013.

Academic Service

- Lead coordinator of the EXP collaboration. I coordinate the cosmological simulations working group. I am in charge of 3 graduate students. Other responsibilities include: organizing in-person meetings twice a year.
- Science organizing committee of the [Clouds over the Pyrenees](#) conference to be held in Benasque, Spain from September 6-9, 2026.
- Science organizing committee of the XMC workshop in Yellowstone to be held in May 26th-30th 2025, at the University of Montana.
- Local and Science organizing committee of the [Milky Clouds over Manhattan conference](#).
- Ph.D. thesis committee of Dr. Silvio Varela (University of La Serena, Chile), Nov-2023.
- Referee for: Astrophysical Journal (ApJ), Monthly Notices of the Royal Astronomical Society (MNRAS), Nature, Nature Astronomy, Astronomy and Astrophysics (A&A), and the Galaxies Journal.
- Beyond-BFE collaboration coordinator: I lead the cosmological simulation group, organize in-person and online meetings.
- Mentor at the City University of New York CUNY-CCA program for undergraduate students at CUNY working with mentors at the CCA, summer 2022.
- Proposal reviewer for [Colombian Science Clubs](#), 2018.

- Local Organizing Committee of the [Andean Cosmology School](#), Universidad de Los Andes, 2015.
- Organizer of the student astronomy seminar at the Planetarium of Bogotá, 2014-2015.

Diversity, Equity, Inclusion (DEI) and outreach leadership:

DEI Leadership:

I have worked extensively to build supportive communities. I co-created a support network for astronomy students in Colombia, [RECA](#), which has grown to 478 members, making it the largest student association in astronomy in Latin America. In 2020, I established a yearly mentorship program designed to support students in their careers. To date, we have worked with 141 students, each paired with a senior mentor for guidance. Additionally, we have compiled valuable resources, including career panels with guest speakers and online guides for applying to PhD programs. I have also secured funding to run this program through the IAU.

- Co-creator of the 10-week [RECA internship program](#) for astronomy students in Colombia. May-August 2021.
- Co-creator of the [RECA mentorship program](#) for astronomy students in Colombia. 2020-2024. (The mentorship program pairs up students with professional astronomers to provide guidance through the application process to graduate programs)
- Career panelist for CUNY undergraduates in STEM “an initiative to enable low-income, talented domestic students to pursue successful careers in promising STEM fields” organized by Professor Viviana Acquaviva. December 3rd 2021.
- Co-organizer, [Diversity Journal Club](#) Steward Observatory, 2018-2021.
- Creator, [Astrocharlas](#), Steward Observatory, 2018-2021. (Spanish outreach series talks in astronomy)
- Writer for [Astrobitos](#), 2018-2021.
- Mentor, Tucson Initiative for Minority Engagement in Science and Technology Program [TIMESTEP](#), 2016-2018.

Outreach

- NYC Prison outreach program at MDC Brooklyn. Led 2 sessions in 2024 of 3-hour outreach session with Spanish-speaking women and men. Program organizer: Kiyan Tavangar (U. Columbia)
- Astronomy podcast in Spanish [vision cosmica](#). I participated in 20 episodes talking about various topics of astronomy for non-specialist audiences.
- Classroom astronomer, NOAO Project [ASTRO](#), 2018-2019.
- Discussion leader, NOAO [Teen Astronomy Cafe](#), 2018.
- Planetarium SpaceArt mentor for Children, Bogotá, Colombia, 2013-2014.

Open source and HPC experience

- Core developer and active contributor of the python packages: (Core developer) [EXPtools](#), (Core developer) [NBA](#), Cranes. (Contributor) [py-Ananke](#), (Contributor) [gala](#), (Contributor) [halo analysis](#), (Contributor) [gizmo analysis](#).
- Expertise with HPC N-body codes: Gadget-3, 4, EXP (CPU & GPU), AREPO.

Telescope and HPC time Awarded

- Hubble Space Telescope, 32 orbits, Cycle 31, 2023. PI: Prof. Sukanya Chakrabarti (U. Alabama).
- MareNostrum supercomputer, 1.7 million CPU hours, AECT-2023-2-0016, 2023. PI: Prof. Chervin Laporte (U Barcelona).
- GMRT 60 hours cycle 44, 2023. PI: Prof. Karin Menendez-Delmestre (Valongo Observatory, Rio de Janeiro).
- Blanco Telescope, “*A VISTA-DECam Experiment in Near-Field Cosmology: Search for the Magellanic Dark Matter Wake*” cycle 2020B. PI: Prof. Julio Chaname (Universidad Catolica de Chile), 3 nights.

Grants

- LSSTC Grant Award (Virtual Internship in Rubin/LSST Science to Provide Research Experience to Undergraduate Students in Colombian Institutions) [2021-51](#), 2021. CO-PI: Nicolás Garavito-Camargo. This grant was awarded to support undergraduate research summer projects.
- International Astronomical Union (IAU) Office of Astronomy development (OAD) [grant 2021](#). PI: Nicolás Garavito-Camargo. This grant was awarded to support the [mentorship program for undergraduate students](#) in Colombia.
- University of Arizona theory travel grant, 2016 and 2018.
- IAU travel grant, 2016.

Observing Experience

- DECam, Blanco-4m telescope, CTIO, Chile, 3 nights, 2020.
- VATT telescope. Mt Graham, Arizona, 4 nights, 2016.
- CIDA, Merida, Venezuela - 2 nights, 2013.
